

Zimbabwe New Energy Data Center

Overview

Confirmed reports from late 2025 detail an agreement to develop a state-of-the-art, green-powered data center campus, marking a pivotal moment for sustainable digital infrastructure in Southern Africa. The government of Zimbabwe has unveiled plans to establish a state-of-the-art data center and. Seattle-based data center company Chillmine has signed a Memorandum of Understanding (MOU) with Zimbabwean independent power producer Energywise Equipment to develop renewable energy-powered data center facilities in the country. Under the agreement, the two companies will collaborate to build. While industry discussions have centered on a potential energy deal for solar-powered data centers in Zimbabwe, credible sources clarify that the significant partnership is between Netherlands-based AAAS Energy and U. -based ChillMine Corporation for a major project in Botswana. The companies intend to utilize power from Energywise's planned 100MW Runde River Solar Park.
